Subject: Approve the Legislative Platform Policy Statement for the Paso Robles Groundwater Basin

Dear Supervisor Debbie Arnold,

I just signed PRAAGS/PRO Water Equity's petition "[San Luis Obispo County Board of Supervisors: Approve the Legislative Platform Policy Statement for the Paso Robles Groundwater Basin](#)" on Change.org.

Approve the Legislative Platform Policy Statement for the Paso Robles Groundwater Basin. We in the North County have made excellent progress in finding a balanced approach to managing and protecting the basin locally. Let's work together and keep moving forward for local control!

Sincerely,
Kathy D'Andrea San Miguel, California

Subject: Thank You!

Supervisor Arnold,

I would like to express my appreciation for the stand you took regarding the legislative platform proposal on Tuesday. It truly did not make sense to adopt the platform without knowing what was actually in the language in the proposed bill being submitted by PRAAGS/PWE.

As you are well aware, the majority of people who live in Creston are opposed to having a water district at all, however many think some sort of management structure is needed.....just not in the form currently being proposed. The formation vote and the election for the Board of Directors needs to be by one person one vote or the whole district will be controlled by a few....and with time it could be controlled by outside interests. If an outsider owed enough land clearly they would take over the election process and put their selected candidates in the B of D seats.

I would like to cite you an example somewhat similar to the one you told me about the neighborhood over on the coast that wanted to assess themselves to pave their roads. There is a neighborhood here in Creston called Eagle's Nest, south of town along Hwy 229 just before you get to Rocky Canyon but across the road. There are probably are 20 or so properties in that development. They have a homeowner's association that deals with the roads and the entry gates, etc. They vote by acreage for any improvements or rules for the community. Some of the residents are members of our Creston Garden Club and they complain often about the fact that they have no control over the decisions....since it only takes one or two of the properties, based on acreage to decide for all of the properties. Therefore, all the homeowners are stuck with any improvement costs or rules regarding anything to do with their roads. I think this group may control other aspects of the neighbors too but I don't know that for a fact.

We don't want the same thing happening with our water district. The B of D could decide to make all residents pay for projects to deliver water to large vineyards, etc. that would have no benefit for the rural residents....but the vineyards would be making money. The rural resident would once again be subsidizing a single industry that already gets plenty of subsidies through our tax dollars. Rain water recharges the basin and runs from the south through the Creston area to the north. Any projects delivering water to the cone of depression over the PR Basin is not going to benefit Creston. The large vineyards would pay the least per acre and gain the most benefits...and their properties would be worth more than that of the average rural resident as a result.

Sheila Lyons
